

Please continue the FM translators that allow KLove radio to transmit. We love our KLove radio station. In the Phoenix area, they are heard on 105.5, 89.1 and 100.9. It has no commercials and it is great for the entire family. We do not have to worry about what is being said for our young family. We also love being able to tell our friends to listen to the encouraging music. It is uplifting and no other radio station in our area is like it! Please let it continue! Sincerely, Robyn Chancellor
